1. Installation

1. Gently pry the hooked cap away from the retention system.

2. Remove the existing cap.

3. Remove the battery insulation tab.

4. Ensure the tabs line up correctly before fitting to the retention system.

5. Push the LED cap until you hear “click”. It’s now installed.

2. Light mode

1. Press the light button
   - 1: Constant mode
   - 2: Flash mode #1
   - 3: Flash mode #2
   - 4: Flash mode #3
   - 5: Off

3. How to change the battery

1. Remove clear cap
2. Release the lighting module
3. Slide the battery out
4. Change battery
