MATERIAL DECLARATION
No parts of these lenses which could be in contact with the wearer are made of materials which are known to cause any skin irritation.

DIRECTIONS FOR USE
This lens is designed for your personal safety and comfort. It can be worn for the whole duration of exposure to the elements or the duration of the workout. Please always use this lens in combination with a Lazer helmet. Please no longer use the lens when it becomes damaged or when dizziness or irritation occurs.

FIELD OF USE
This lens is made to be used in combination with a Lazer helmet. Please only use this lens in this manner. Do not use this lens for activities other than cycling, roller skate, skateboard. It is not designed to be used with mopeds or any other type of sport, mechanical or not.

REPLACEMENT OF SPARE PARTS, ACCESSORIES AND INSTRUCTIONS FOR FITTING
Only use original parts. To replace the lens, ensure the compatibility of the marking and the right lens is fitted.

DURATION OF USE
Inspect regularly for damage.

LENS FITTING
For correct installation and removal of the lens, please consult your helmet owner manual.

OBsolescence
This lens has no expiration date, with correct use and without damage this lens can be used indefinitely.

WARNING
- This lens may transmit impacts when encountering with high speed particles worn over standard ophthalmic spectacles, thus possibly creating a hazer to the wearer. If you need protection against high speed particles at extreme temperatures, then the selected lens should be marked with the letter T immediately after the impact letter, if not, that eye protector shall only be used against high speed particles at room temperature.
- This lens is suited for protection against moderate impact hazards but are NOT unbreakable.
- Do not modify or alter the lens.
- A pitted or scratched lens reduces vision and seriously reduces protection. Replace immediately.
- The materials which may come into contact with the wearer's skin can cause allergic reactions to susceptible individuals although this is not known to happen.
- Consult the relative European standards.
